NECKLACE

Carefully unwind the ball of yarn. Fold the entire length of yarn in half. About 15 in. (38 cm) from one end, make a loose slip knot with the doubled length of yarn – creating a big loop of yarn.

Hold the slip knot in one hand. Reach the thumb and index finger of your other hand through the loop above the slip knot, grab the doubled yarn and pull it through to make a new loop – this is finger crocheting. Note: You needn't use exactly the fingers we specify – use whichever of your fingers you like!

Continue to make new loops in this way until the crocheted section of the yarn measures about 15 in. (38 cm).

Knot the yarn at the end of the crocheted section. Trim yarn about 15 in. (38 cm) past last knot.

FINISHING

Knot yarn ends together, and then trim close to knot.

Instructions:

Slide your hand into one end of the yarn tube.

Slide the yarn up and gather the tube onto your arm until your hand emerges from the other end.

With your other hand, grab the uppermost edge of the yarn tube and gently pull it down over itself.

Continue pulling until both ends of the tube meet.

Holding both ends together, slide the tube off your arm. You now have a double layer of the yarn.

Suggestion:

Knot the ends to keep the layers in place.

For a fun, 'fuller' look, repeat Steps 1-5. This variation will create a shorter Scarf.

BOBBLES

Unfold one hank of A. The yarn is constructed as a tube. Gently slide your arm through the yarn tube, grasp the yarn, then pull yarn tube back up your arm to double it.

Inflate 8 balloons to about 11 in. (28 cm) circumference, or as desired. Slide balloons into doubled yarn tube. With string, tie a knot on each side of each balloon. Tie a doubled length of string onto one end of yarn tube as a hanging loop.

Find a place to hang the tube. You'll be painting glue onto this hanging tube, so cover the surface below the tube with a plastic drop cloth or spare plastic trash bag.

Pour glue onto a paper plate. With paint brush, paint glue onto each balloon. Allow glue to dry. Pop each balloon. For a gentle release of air, we suggest popping each balloon close to where you tied it off.

Cut the yarn tube between each balloon.

Pull popped balloons from yarn tube. Reshape yarn bobbles if needed.

WREATH

Unfold one hank of B. Glue one end of B to back of wreath and allow to dry. Wrap B length around wreath until entire length has been used. Cut end of yarn and glue to back of wreath. Repeat with second hank of B, until entire wreath is covered.

FINISHING

Twist remaining A and B yarns together, then wrap twisted strand around wreath. With sewing needle and thread, take a few stitches through the twisted strand to keep it in place.

Glue bobbles to wreath.

Instructions:

PLANT HANGER

Unfold hank of yarn.

Cut a length of yarn twice the height of the pot. The yarn is constructed as a tube. Gently slide your arm through the yarn tube, grasp the yarn, then pull yarn tube back up your arm to double it. This doubled piece will be the pouch for the flower pot. With needle and thread, gather cut edges of pouch and draw tightly together to close and secure with stitches.

Cut a length of yarn about 26 in. (66 cm) long. Whip stitch piece to top of pouch. Sew ends of this top piece together.

Cut a length of yarn equal to the circumference of top of pot and set aside.

Cut remaining yarn into thirds for hangers. Sew one end of each hanger to top of pouch, spacing them evenly around top edge of pouch. Gather top edge trim behind each hanger and stitch in place to reinforce hangers. Knot ends of hangers together.

Wrap remaining piece of yarn around pouch below top edge trim and stitch in place at hangers.

LAMPSHADE

Unwind one hank of A.

Sew one end of yarn to top of shade. Thread blunt needle with a strand of B.

Gently wrap A once around shade. Continue wrapping and as you wrap, whipstitch top edge of this second wrap to the lower edge of the first wrap. Continue in this way until shade is covered.

Trim end of A and, with sewing needle and thread, sew yarn end to shade.

Top Trim

Cut a length of B long enough to encircle top of shade + 4 in. (10 cm).

Cut a length of A twice the circumference of top of shade. Draw B through A to gather B so that the resulting circle is the circumference of top of shade.

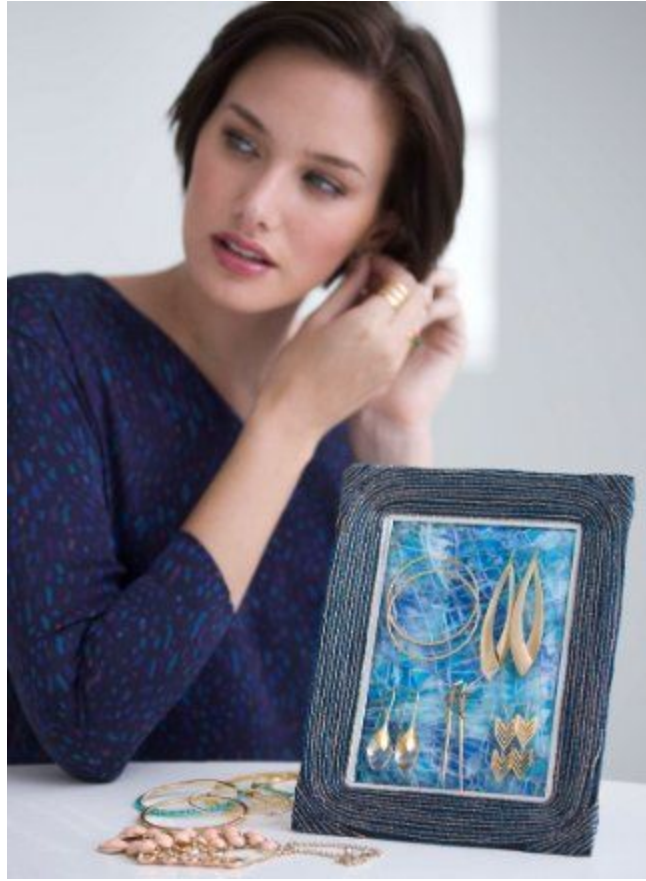

With B, whip stitch trim to top of shade, wrapping B over trim in places to make 'poufs' of yarn.

Lower Edge Trim

Make same as top trim.
